Why Laughter?

- Laughter breaks the ice, brings people together, and sets a perfect tone
- It makes your event a winner long after the event is over
- These days, more than ever, your people need to laugh!

Why Magic?

- Magic is red hot right now!
- It adds visual appeal and interest, and keeps the audience's attention
- Magic surprises, amazes, and bridges the gaps in human diversity

Why Audience Interaction?

- Interaction ensures involvement and eliminates boredom
- People don't want to be talked at--they want to laugh and share a great experience
- Your people will LOVE seeing their bosses, co-workers, and friends get involved!

The truth is, stand-up comedy monologues don't work for most corporate audiences, but clean, improvisational comedy laced with eye-popping magic and audience interaction *WORKS every time.*
